No 49 Sub2

To

The Commissioner
Shimoga.

Sir,

With reference to Mysore Secretary's Official Memorandum No 634 dy 18th October 1893 forwarding for report a petition from the temple Servants of the Rameswara Devaru at Kelabi, Sagar Taluk praying that the emoluments attached to their offices which were curtailed some time back may be raised to their former Scale, I have the honor to report as follows. —

2. The temple in question was enjoying previous to the Inam Settlement lands bearing an assessment of Rs 585-15-5 as Inam paying to Government a Small Jodi of Rs 38-5-. At the Inam Settlement a greater portion of these Inam lands were resumed and registered in the name of the temple as lands liable to pay full assessment At the Survey Settlement a higher rate of assessment having been imposed the total amount including

which the temple had to pay to Government came to Rs. 758-4-9. In order to meet this demand, it was found necessary to curtail the expenditure by reducing the establishment.

3. The old scale of expenditure per annum was 1045 9/10 Kandies of paddy and Rs 468-15-11 in cash and it was reduced in may 1880 to 297 Kandies of paddy and Rs 250 in cash (Vide late Chief Commissioner's Pro No 335/R77 dt 17th April 1880)

4 It will be seen from the enclosed Statement Shewing the former and the present Scale of establishment and expenditure that every item has been reduced to the lowest possible figure. But for the purposes of this report however, I have only to deal with the case of Vapadidars who are the parties who have laid their grievances before the Government, and one or two other Servants whose case is deserving of Consideration. -

5. Under the old Scale there were 13 different Offices under the head Vapadidars in all drawing an emolument in kind of 384 9/10 Kandies of paddy Twelve of these Offices were dispensed with fixing an allowance

of Rs 24/- per annum for the one retained. Of the 13 Opadidars only 8 were residents of Keladi, and it was ordered that one out of this number should perform the duties of all the Offices by turn. Thus a member of each one of these 8 families gets his return once in 8 years.

6. The duties of these 13 Office holders were as detailed in the margin, and all these are now supposed to be performed by one individual. Some of the 11 Rudrabhishekka Opadidars had also to perform the duties of some other Offices for which they were being paid additional emoluments. The questions for Consideration therefore are 1st whether is there any necessity to revive these Offices and 2d would the funds permit of?

11 Akadasivar Rudrabhishekka.
1 Ivarilā - do -
1 Mantra Prashna sa - 1

7. Under the old System the 11 "Akadaswar Rudrabhishekka" Office bearers were repeating the rituals at the time of Pooja, and the others were repeating their portions of the same on proper occasions when the Ceremonials were in progress. But a Single individual is —

repeats the "Rudrabhisheka" ritual which is considered to be not an approved form of Puja. This form of Puja however is in vogue from past 13 or 14 years, and I see no reason why the old order of things should be revived unless it is intended to shew some consideration to the petitioners who and their ancestors enjoyed the emoluments as a sort of hereditary right.

8. Another statement shewing the annual receipts and expenditure is also submitted and it will be seen therefrom that on an average a saving of Rs 740· per annum is effected. The income of the temple at the time of the revision of the establishment was the same as it is at present, excepting the item of interest. The market price of the grain was then calculated at a rupee per Kandy, but owing to gradual rise in prices, savings began to to accumulate steadily. The accounts show that a total saving of Rs 9000/- in round numbers including the sum of Rs 5000/- invested in Govt securities was effected up to the close of the year 1892-93.

9. I take this opportunity to bring to your notice that in addition to the

the Oppadidars the Sweeper and musicians have similar Complaints. According to the old Scale. there were two Sweepers and their emoluments were 17 Kandies of paddy with one meal of rice per day. In the revision the Services of one of them was dispensed with and the wages of the other were reduced from 12 to 6 Kandies. The money value of 6 Kandies of paddy will be about Rs 7½, and it is almost impossible to secure the Services of a Sweeper at such a low rate of wages. The Services of this Servant are indispensible. On local enquiry I learn that it is necessary to fix the wages at 18 Kandies of paddy per year in addition to the usual dole of Cooked rice.

10. The wages of musicians (who were four in number) which were 45 Kandies of grain in addition to a dole of Cooked rice per head were reduced to 12 Kandies. under the old arrangement music had to be played at the temple thrice a day. From the time the wages were reduced the hereditary musicians left the village and temporary Set is being employed only on the occasion of Car festi

paying them Rs 25/ for the occasion. The devotees complain very much about this arrangement, and pray that the services of a set of musicians be employed for special occasions such as Car feast, Sivaratri, Sravana masa &c paying them fixed wages in grain. The Taluk Amildar recommends that in all 32 Kandies of paddy be fixed for this service.

11. I consulted the devotees and others interested in the temple and their opinion is that at least the perquisites of the 8 families of Opadidars residing in Keladi be raised to their former scale which will come to 192 Kandies of paddy. I think that this is a very large expenditure. The emoluments attached to one and all of the offices have been reduced to certain extent and in the event of these Opadee offices being revived they should be on a reduced scale of wages. These small allowances were being enjoyed by the present incumbents and their

ancestors from the time the temple was established and the recipients consider them as a sort of birth right. When the funds at the disposal of the temple permit it, I think it is nothing but reasonable to continue such offices although they might not be considered altogether indispensible. In the event of the Government is disposed to reimpose these offices I would recommend that the allowance be fixed at 10 Kandies of paddy per head per annum. The additional cost will be about Rs. 116 leaving a surplus of about 624 Rs. a year which is an ample margin for unforseen expenditure such as repairs to the temple, purchase of utensils, cloths &c.

The Muzrai Secretary's Official Memorandum and its enclosures are herewith returned.
